Kwa Njenga Circular Economy & Enterprise Hub: winslausokhala.github.io/kwa-njenga-circular-economy-hub

PROFILE SUMMARY

Final-year Applied Statistics with Information Technology student (BSc, expected Dec 2026) combining compliance-focused data experience with direct circular-economy and community program work. Founded a youth-run waste-to-value hub converting plastic, organic, and textile waste into marketable products, and completed a three-month attachment at a national regulatory authority (PBORA) building digital data-collection and reporting tools. Independently delivers training as a statistics tutor, and builds responsive websites and an independent news site. Organized, detail-oriented, and comfortable engaging diverse stakeholders.

KEY SKILLS & COMPETENCIES

- **Training & Facilitation:** designing and delivering learning sessions and materials; tracking participant progress
- **Partner & Data Administration:** digital onboarding and questionnaire design (KoboToolbox, Google Forms), records management, due-diligence documentation
- **Program Coordination:** planning and running initiatives independently — logistics, scheduling, stakeholder partnerships
- **Communication & Reporting:** client- and community-facing communication, report writing, news writing and fact-checked publishing, impact and progress tracking
- **Data Analysis & Statistics:** hypothesis testing, quantitative and qualitative analysis, data cleaning and reporting using R/RStudio, SPSS, Advanced Excel, Python, SQL and Power BI
- **Web Development:** HTML, CSS, JavaScript and Node.js; responsive websites; M-Pesa (Daraja API) payment integration; Git/GitHub and GitHub Pages deployment
- **Digital Publishing & SEO:** content publishing, Google Search Console, sitemaps and structured data, domain and DNS setup (Cloudflare), site speed and accessibility testing (Lighthouse)
- **Digital Tools:** MS Office (Word, Excel, PowerPoint), Power BI, SQL, R, Python, Git/GitHub

CIRCULAR ECONOMY & COMMUNITY PROJECT

Founder & Data Lead — Kwa Njenga Circular Economy & Enterprise Hub (Ongoing)
Youth-run waste-to-value initiative, Embakasi South, Nairobi

- Built a youth-run model converting plastic, organic, and textile waste into pavement tiles, briquettes, and bags, in a settlement with no formal waste system
- Leads partnership-building with industrial feedstock suppliers, a community-based organization, and a university engineering department for materials R&D
- Designs the data approach for tracking waste tonnage diverted, enterprise revenue, and milestone progress for funders

RELEVANT EXPERIENCE

Statistical Analyst — Industrial Attachment (3 months)
Public Benefit Organizations Regulatory Authority (PBORA)

- Designed and deployed digital data-collection questionnaires in KoboToolbox for a field team — comparable to onboarding partners onto a digital compliance platform
- Supported due-diligence-style data work: collecting, verifying, and cleaning administrative records from real-world partners end-to-end
- Translated findings into written reports for organizational use, applicable to knowledge-pool and publication support

Statistics Tutor (Independent) (Ongoing)
Self-employed — winslausokhala.github.io

- Plans and delivers training sessions, adapting technical material into clear, accessible explanations for learners
- Manages scheduling, materials, a published website, and client communication independently

EDUCATION

BSc, Applied Statistics with Information Technology (Expected Dec 2026)
Masinde Muliro University of Science and Technology — Coursework: hypothesis testing, quantitative & qualitative analysis, R/RStudio, SPSS, Advanced Excel, Python

Kenya Certificate of Secondary Education (KCSE) — Grade: B+ (72 points)
St. Mary's Kibabii Boys High School
